Octola Private Wilderness is comprised of a stunning architect-designed

10-suite log cabin, the brand new 2 bedroomed 'super suite' Villa and a Northern Lights glass cabin which are created by Janne Honkanen, a pioneer of experiential travel within the Arctic Circle. Whether you book the entire cabin of 10 suites (or take either a wing of 6 or 4 suites), or the 2 bedroomed Villa (or both!), the rates are all-inclusive, and include a private gym and fitness centre, the unique hand-carved wood-burning sauna, an exclusive, totally private log-wood 'bar & bbq' cabin – in addition to the freshest, finest food, cooked entirely on-request, private butler and wilderness guides. The Northern Lights are uniquely visible for eight months of the year, starting from August and lasting until April. The Lodge is built to showcase them from every angle, and you can enjoy them from the floor to ceiling windows in every bedroom.

"Be secluded, far from the crowds, and be at one with nature, but with access to every conceivable private service and comfort."

JANNE HONKANEN

Octola is the ultimate family-friendly destination

With special safe mini snowmobiles for children as young as 2, as well ice skating, skiing, tobogganing and much more, right on your doorstep. There is also a private reindeer enclosure where you can pet and feed Octola's herd whenever you like.

The food at Octola is all sourced locally, consisting mainly of wild plants, berries, mushrooms and fish – all sustainable, pure and ecologically gathered, from nature to the table, by a Michelin starred Chef, and complemented by wines chosen by one of the top sommeliers in Finland.

The name Octola is derived from the magical number 8: the latitude 66' North, the Arctic Circle, crosses all eight Arctic countries; there are eight seasons in Lapland; there are eight points of the compass; the biggest wave in the sea is the seventh, but eight is the new beginning. Your private chef will prepare an eight-course North Pole menu to honour the magical number eight and the versatile Arctic cuisine.
